REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a method of evaluating an installation location of an acceleration sensor assembly in a vehicle wherein it discloses a following serially connected evaluating circuit, especially for triggering occupant protection devices, in which a prescribed acceleration impulse is impressed at at least one prescribed position on the vehicle to produce an impulse response, the impulse response is measured at the installation location, a frequency spectrum of the impulse response is determined, and the installation location is evaluated through comparison of the frequency spectrum with a prescribed nominal spectrum. These limitations are neither taught nor obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
